Section 4: FIRST AID

Description of First Aid Measured:

Eye (Contact)	Hold eyelids apart and flush the eye continuously with running water.
Skin (Contact)	Remove contaminated clothing and flush skin and hair with running water.
Inhalation (Breathing)	Remove to fresh air. Contact a doctor/physician for treatment advice.
Ingestion (Swallowing)	DO NOT induce vomiting. Give water to drink if conscious. For advice, contact a doctor/physician.
Advice to Doctor	Treat symptomatically for detergent containing proteolytic enzymes.
First Aid Facilities	Ensure an eye wash and safety shower is available and ready for use.
Additional Information	Exposure to aerosols or mists may aggravate atopy or asthma symptoms.

Most important symptoms and effects – both acute and delayed:

Inhalation	May cause allergy/asthma symptoms, respiratory tract irritation, breathing difficulties
Skin Contact	May cause allergy or irritation, redness, drying, defatting or cracking of skin.
Eye contact	May cause eye irritations, discomfort, pain, reddening or swelling.
Ingestion	May be harmful if swallowed. May cause stomach distress, nausea or vomiting.

Section 5: FIREFIGHTING MEASURE
--

Suitable Extinguishing Media	Use water fog (or if unavailable fine water spray), dry chemical, carbon dioxide or alcohol stable foam.
Hazards from Combustion Products	Carbon dioxide and carbon monoxide may be produced in the case of fire or during thermal decomposition.

**Precautions for Fire
Fighters and Special
Protective Equipment**

Keep containers cool by spraying with water.

Section 6: ACCIDENTAL RELEASE MEASURES**Emergency Procedure** Not applicable.**Spills / Clean up**

Clean up personnel should wear full protective clothing. Restrict access until completion of clean up. Then ensure adequate ventilation. Stop leak if safe to do so. Contain spill with absorbent material, such as toweling, sand, vermiculite or other inert material. Prevent spill entering stormwater drains or waterways. Collect and dispose of clean up material according to local regulations. Wash away remnants with copious amounts of cold water to sewer. Clean area by working from the periphery to the centre of spill or from the edge of the room to the centre.
